Freestanding Appliances

2019

Who are Bosch?

"I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit."

Robert Bosch, 1921

For over 125 years, the Bosch name has been synonymous with engineering excellence. Our home appliances are renowned for their quality, reliability and performance which derives from our inherent, unflagging commitment and the painstaking thoroughness with which every unit is made. As you would expect from Bosch, there are no gimmicks or frills with our products – just pure, clean lines and beautiful, functional simplicity that will enhance any kitchen.

The values that shaped Robert Bosch's vision for his new company in 1886 are the same principles that guide the business today; never lose the trust of your customers, look after your staff and partners and change things for the better. It's what has kept Bosch at the forefront of the home appliance industry and what will keep it there in the future.

Looking for help?
You'll find it here.

For help with your home appliance,
trust Bosch Home Appliances Service.

Arrange an engineer visit.

Our appliances are manufactured to the highest standards, but if you do need a visit from an engineer we are here to help. We have teams of locally based engineers around the country – employed and trained by Bosch*. This gives them unrivalled expertise and knowledge of our appliances. We repair appliances both in and out of guarantee. All repairs are analysed in advance by a technical team so that the parts likely to be needed to complete the repair are sent to the engineer's van the night before the visit.

To arrange an engineer visit to your home please call:

0344 892 8979

Calls are charged at the basic rate, please check with your telephone service provider for exact charges.

You can also arrange an engineer visit online: **www.bosch-home.co.uk/ customer-service/book-a-repair-online**

Product advice.

If you need help using programmes or features, or need assistance selecting a new Bosch appliance from our current range, our product advice team can help.

You can call us on

0344 892 8979
or visit: **www.bosch-home.co.uk** for frequently asked questions and helpful videos.

Register my appliance

We advise that you register your appliances so that we can contact you about any product updates.Visit www.registermyappliance.org.uk for more information.

You can also call Bosch directly to register your appliance on **0344 892 8979** (option 5). Please call us within 28 days of purchase to discuss the full range of options for extending your warranty.

Visit the Bosch online store.

Find a comprehensive selection of accessories to help you get the most out of your appliance, along with our full range of replacement spare parts and cleaning and care products at the Bosch online store.

You can also purchase Tassimo hot drinks machines, vacuum cleaners, irons, steam stations, kettles, toasters and food preparation appliances directly from us online.

You can call us on

0344 892 8979
or visit: **www.bosch-home.co.uk/store**

Accessories.

Many appliances can be enhanced with optional extras, such as telescopic rails for ovens or special cookware for hobs.

When buying a Bosch home appliance, you know you are purchasing a quality, reliable product. However many appliances are used daily, so need cleaning and maintaining to keep them looking great and operating at peak performance.

Our cleaning and care products have been thoroughly tested and approved for safe and effective use on your Bosch home appliance.

Replacement spare parts.

We keep in stock a comprehensive range of replacement spare parts for our appliances for up to ten years. All our parts are original spare parts, not copies.

High quality service.

Bosch appliances are renowned for their quality and we believe that our customers deserve exceptional customer service. You can contact us seven days a week for assistance.

Calls will be answered
**Monday to Friday 8am to 8pm,
Saturday 9am to 5pm and
Sunday 9am to 4pm.**

*In some areas we may use an approved service partner. The process may vary for repairs carried out by our service partners.

Home connect

From controlling your Home Connect Serie 8 oven with your voice using Amazon Alexa, to never running out of dishwasher tablets again, thanks to the Amazon Dash Replenishment Service*. Smart appliances mean less things to think about, more time to spend on something else. Bosch Home Appliances with Home Connect ensure your home is ready for the future today.

How you can use your Home Connect App.

In partnership with:

amazon alexa

Voice control services based on Amazon Alexa will allow you to connect and control your appliances in your home simply by speaking to Alexa. Along with the ability to use Alexa with many other partners from Philips Hue, Spotify and IFTTT, the possibilities are endless.

Once Home Connect skills are set up you can control your oven, dishwasher, coffee machine and washing machine. All you'll need to do, is simply ask: **"Alexa, start Home Connect Oven"** or **"Alexa, tell Home Connect Oven to start"**. Alexa will then continue to guide you through.

Perfect for those moments when you've got your hands full!

Home Connect partnerships.

amazon dash Replenishment   Never run out of dishwasher tablets again.

drop   The easy way into family cooking, creating time spent together as a family.

Works with IFTTT   Removing appliances from your daily routines by making them do the work for you.

flic

fitbit   Monitor and receive notifications on all of your Home Connect appliances through your FitBit.

Making **life easy** through innovative technologies

Smart connectivity for an easier life.

The future has arrived and it's knocking on your front door. Home Connect brings smart technology to your appliances and lets you control them with your phone or tablet.

So, whether you want to turn the oven on to cook your dinner when you're on your way home, or check what's in your fridge while you're at the shops, you'll be in complete control.

Simple to set up, simple to use.
There's no need to worry if you're not a technical genius. We've made sure Home Connect is simple and straightforward to set up. We've even made videos that will take you through the process and get you up and running in just a couple of minutes.

You'll find the Home Connect app just as easy to use. There are lots of pre-set options to get you started quickly, and everything is set out logically and clearly.

Relax – we're invented for life.
Home Connect uses the same security protocol as online banking so you can enjoy extra peace of mind when you're using your Bosch appliances. Our app has TUV Trusted App certification, and all of our Home Connect appliances are Wi-Fi certified by the Wi-Fi Alliance.

Check the food in your fridge, before check out.
Thanks to Home Connect, you can now check the contents of your fridge at any given time and place. Interior door cameras take pictures every time the door is closed, and conveniently sends them to your mobile device. Wherever you are, simply access your Home Connect app to get a perfect overview of what s in your fridge. Never forget the milk again.

The fridge that helps you organise.
Not sure how to store your fruit and vegetables? Your fridge has the answers. With Object Recognition, our Home Connect fridge will suggest the best place within the fridge to store your fruit and veg products, keeping them fresher for longer. You can even explore recipes to help you use up those left over items.(On selected appliances)

MultiAirflow

EasyAccess

How you can use your Home Connect App.

Let us choose the best wash for you.
To stay at their best, different clothes need to be washed in different ways. With the Bosch Home Connect app, simply tell your washing machine what's in the load and it'll work out the perfect program. It'll even tell you if there's an item that should come out and be washed a different way.

Recipes
Meal planning has never been easier. Browse the Home Connect Recipe Book from your favourite armchair. When you've made your choice, simply send all the settings from the app directly to your oven so it's ready to go when you are.

The range of recipes are all tried and tested by Bosch Home Economists around the world, so you'll find exciting new flavours alongside old family favourites. New and seasonal recipes are added on a regular basis, so you'll never be stuck for what to eat.

Tablet top up
Amazon Dash Replenishment will automatically reorder your dishwasher tablets when your supply is running low. Simply activate Dash Replenishment in the Home Connect app and regain time spent shopping for supplies, as tablets will be automatically delivered to your doorstep. Another thing crossed off your to-do list.

Remote Delayed start
Want your dinner ready when you arrive home? That's no problem with Home Connect. Simply put your food in the oven before you go out and set the oven to start later in the day so it's ready just as you come back through the front door.

But what if you're delayed while you're out? That's fine. You can simply adjust the start time from wherever you are and, if the food has already started cooking, you can simply press "pause". The oven will lower the temperature until you start it again so your meal isn't ruined.

Introducing the Bosch laundry range.

Energy and water-saving technologies across our latest laundry appliances give you peace of mind when washing and drying your clothes. To help you choose the right appliance, we have divided them into three categories.

Model shown: WAT286H0GB

Serie 8 +++

Perfection in every detail, our **Serie 8** range of laundry appliances stands out from the crowd with superior quality, results and first-class design. Discover cutting-edge features and extras such as **i-DOS** automatic dosing in our washing machines and **ActiveOxygen™** for hygienic washing at low temperatures. Monitor and control your wash remotely with our **Home Connect** models, developed to give you complete control over your laundry.

Serie 6 ++

Our **Serie 6** models strive for sustainability and appreciate the active lifestyle of you and your family. Appliances in this range offer you real benefits and energy-efficient features combined with timeless design. **i-DOS** doses each load with millilitre precision, which not only delivers outstanding results but a host of savings. While **Night Wash** allows you to take advantage of evening tariffs and won't disturb you.

Serie 4 +

Easy to operate with family life in mind, our **Serie 4** range truly understands your requirements. Practical and straightforward to use, these appliances combine easy operation with stylish design. With **Reload** function, which allows you to open the whole door throughout the cycle so you can add or remove items of any size.

Laundry functions explained.
(Check model for available functions)

WaveDrum
Select the programme for your wash and the droplet-shaped drum structure and asymmetrical paddles adjust the drum movements to powerful or gentle.

EcoSilence Drive
Bosch EcoSilence Drive washing machines come with a 10-year guarantee.

Aqua Stop
This security gives you peace of mind that the water will stop in the unlikely event of a leak.

iDOS
iDOS automatically senses exactly the right amount of detergent and water to use, as well as the correct temperature, whatever your load, adapting to the fabrics, level of soiling and weight of the load.

ActiveOxygen
This clever system cleans your most delicate fabrics at low washing temperatures, protecting their colour while eliminating 99.99% of the bacteria and germs found in clothes, without the use of any chemical additives.

Reload
Simply pause the cycle and the machine will automatically adjust the water. This allows you to add or remove items of any size to your wash.

Time Delay
Have your laundry ready when you need it. Just delay the start of your programme with one simple button.

AntiVibration Design
A spiral design on the side of the washing machine that increases stability and reduces vibration. This makes for a quieter machine with improved sound dampening.

Capacity
Our Free-standing washing machines have a drum capacity of up to 9kg, perfect for those busy households.

Washing machines

Never miss an item again. Reload by Bosch.

For dropped socks, mistaken items with your whites or forgotten clothes, **Reload** function on Bosch washing machines allows you to add or remove clothing of any size to your washes. Simply pause the cycle and the machine will automatically adjust the water level to allow you to open the door. Reload your items and restart the wash.

Bosch integrated technology for a peaceful washing experience.

Enjoy the quiet life.

Our latest washing machines with **EcoSilence Drive™** generate a noise level of just 41 decibels – that's quieter than the sound of the sea at 55 decibels. The modern world is noisy enough, so it's good to know that Bosch technology can help make the home environment a little oasis of calm.

Less rock and roll.

We've also created **AntiVibration** technology to cut down noise. The sidewalls of the washing machine feature a spiral design that increases stability and reduces vibrations. Improved sound insulation and low noise shock absorbers further dampen the noise to provide a whisper-quiet machine.

Silent night.

The special **Night Wash** programme makes washing machines some of the quietest. The function reduces the high spin speed during the spin cycle so you can do your washing while everyone is sleeping without disturbing your family.

Everything's just right with i-DOS.

💧 i-DOS

Too much detergent or too little can lead to poor washing results. i-DOS automatically senses exactly the right amount of detergent and water to use, as well as the correct temperature, whatever your load.

The perfect dose every time.

It's easier than you might think to get the detergent dose wrong when doing the laundry. Thanks to **i-DOS**, it's no longer a worry. The **automatic dosing system** from Bosch uses the optimum amount of detergent for every wash what ever the size of your load.

**The right setting for the load.
Makes perfect sense.**

Whether it's a quick sports wash or a full weekly load, sensors within the automatic dosing system determine the amount and type of clothes within each load and set the correct temperature and amount of detergent required for perfect results.

Too much? Too little? Just right with i-DOS.

Once activated, the i-DOS system measures the detergent automatically, to the nearest millilitre. Sensors inside the washing machine detect the type of fabric, the load volume in the drum and the degree of soiling, and adjust the detergent to the optimum dose accordingly. In this way, you'll achieve the best results for your clothes, whilst **saving detergent and water.**

Too much.

Using too much detergent – even by a little – leads to **significantly higher** water and energy consumption when washing. Visible detergent residues can be left on clothing, which can trigger skin irritation and allergies.

Too little.

Using too little detergent can lead to **poorer washing results.** Stains won't be completely removed and could be left on clothes permanently. Insufficient detergent can also result in discolouration and unpleasant odours.

Model shown: WAT28661GB

Washing machines

To stay at their best, different clothes need to be washed in different ways. With the Bosch Home Connect app, simply tell your washing machine what's in the load and it'll work out the perfect program. It'll even tell you if there's an item that should come out and be washed a different way.

Making **life easy** through innovative technologies

Introducing the Bosch dishwasher range.

All our free-standing dishwashers offer a range of advanced technologies as standard and additional options across the range to suit your individual requirements.

To help you choose the right Bosch dishwasher, we have divided them into the four ranges below.

Serie 8 +++

Our **Serie 8** range combines cutting-edge design and advanced technologies including our Home Connect feature, for optimum cleaning performance. The **A+++** energy efficiency rating of this range is complemented by our **PerfectDry** function, where moisture is absorbed before being released as hot air for energy-efficient drying. The **VarioFlex Pro** basket system offers additional storage and flexible loading solutions.

Serie 6 ++

Our **Serie 6** range comes packed with technology, from energy- and water-saving modes to quick washes for when time is of a premium. This range contains a **PerfectDry** model offering excellent drying results and also our quietest model that can operate as low as 36dB.

Serie 4 +

Our **Serie 4** models offer great value for money but do not compromise on Bosch build quality. They combine advanced energy- and resource-saving features and in addition offer **VarioFlex** baskets with foldable racks in the lower basket.

Serie 2

Our **Serie 2** dishwasher range offers you classic design with easy operation. This is the optimal solution for anyone who wants a reliable appliance to suit their individual requirements.

PerfectDry

A clever function that saves energy by using less electricity to dry everything to perfection. And we do mean everything - plates, pans, glasses and all plastic items. Your lunch boxes and containers will be completely clean and perfectly dry, so you'll never have to pick up a tea towel to finish the job again.

The technology behind PerfectDry, unique to Bosch, is called Zeolith®. It is a process applied to every cycle that uses naturally occurring minerals, that heat up when they come into contact with water. The warm air is then distributed evenly over the load.

The dish dryer among dishwashers.

The technology behind **PerfectDry** uses **Zeolith®** minerals to help dry the load economically and efficiently. The dishwasher absorbs humidity from the washed dishes and the clever **Zeolith®** beads then transform that humidity into warm air that speeds up the drying process. So when you need a wash with brilliant drying results, it's time to choose Bosch.

Natural Zeolith® mineral

ExtraDry

Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the Extra Dry option and more heat will be created to extend your load's drying cycle.

Making **life easy** through innovative technologies

Choose the right appliance for you, for the space in your kitchen.

Serie 2

LED Display with dial control

Machine care.

Your dishwasher will help look after itself with this smart function. Optimising the water and energy consumption, it works on a short run time of 80-90 minutes at high temperatures. It eliminates lime and grease deposits inside the dishwasher and works with a standard machine-care detergent. On selected Serie 8 and Serie 6 models, it will even remind you to run the programme every 30 cycles.

10 year anti-rust warranty.

Our appliances are made from top quality materials and in addition to our standard appliance warranty, we provide a free of charge warranty against rusting-through of the dishwasher's inner cavity.

Model shown: SMS88TW06G

Dishwasher functions explained.

(Check model for available functions)

ExtraDry
Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the Extra Dry option and more heat will be created to extend your load's drying cycle.

VarioSpeed Plus
Our VarioSpeed Plus option reduces programme times without compromising on quality. So you still get hygienically clean and dry dishes but in about a third of the time of the Eco programme – ideal for busy households and entertaining.

Home Connect
To stay at their best, different dishes and glassware need to be washed in different ways. With the Bosch Home Connect app, simply tell your dishwasher what's in the load and it'll work out the perfect program.

Place Settings
A selection of our dishwashers will hold up 14 place settings in one load – perfect for larger households.

Self-cleaning filters
Self cleaning filter system, with spray arms designed to direct water at the filters on every rotation.

Please note, self cleaning filters are designed to keep filters clear during the washing cycle. Regular filter cleaning and maintenance is still recommended.

Dosage Assist
Get the most out of your detergent with Dosage Assist; a small area at the front of the top basket that catches the tablet when it's released during the cycle. It controls how the tablet is dissolved for optimum performance.

DuoPower
Our 45cm models feature a twin spray arm in the top basket to ensure perfect water coverage every time.

Bosch dishwasher programmes.

PROGRAMME NAME	ITEMS SUITABLE FOR PROGRAMME	TYPE OF SOILING	ADDITIONAL OPERATIONAL OPTIONS
Economy 50	Mixed utensils & cutlery	Part dried, common household food remnants	All
Intensive 70	Pots, pans, non-sensitive utensils & cutlery	Very stubborn burned or dried-on food remains containing starch or protein	All
Auto 45-65	Mixed utensils & cutlery	Part dried, common household food remnants	All
Glass 40	Sensitive utensils, cutlery, temperature-sensitive plastic & glass	Lightly adhering, fresh food remains	IntensiveZone, VarioSpeedPlus, Half load, ExtraDry, Shine and Dry
Silence 50	Mixed utensils & cutlery	Part dried, common household food remnants.	IntensiveZone, Half load, HygienePlus, ExtraDry, Shine and Dry
Pre rinse*	All types of dishes.	Cold rinsing, intermediate cleaning.	None
Quick 45°C*	Sensitive utensils, cutlery, temperature-sensitive plastic & glass	Lightly adhering, fresh food remains	Extra Dry, Shine & Dry
1 Hour 65°C	Mixed utensils & cutlery	Part dried, common household food remnants.	Extra Dry, Shine & Dry
Short 60°C	Mixed utensils & cutlery	Part dried, common household food remnants	All
Normal 65°C	Pots, pans, non-sensitive utensils & cutlery	Very stubborn burned or dried-on food remains containing starch or protein	Extra Dry, Hygiene Plus, Intensive Zone, VarioSpeed Plus
Machine Care	Run when empty	Thoroughly cleans your machine - use in combination with a standard machine care detergent	None

*Programme does not include drying in the cycle.

Making **life easy** through innovative technologies

Bosch innovation in all our free-standing dishwashers.

Whisper quiet washing.

Bosch dishwashers are amongst the quietest in the world. With the revolutionary **EcoSilence Drive**™ there are dishwashers in the range which operate at 38 decibels, that's even quieter than the sound of a bee buzzing! With the Silence programme selected, the noise is reduced even further.

Energy efficiency.

The opportunity to save energy is now even greater. Innovative technology in our dishwashers gets the most out of every single drop of water. Our most energy-efficient dishwashers in the **Serie 8** and **Serie 6** ranges boast an A+++ energy rating.

Save water every load.

The **ActiveWater**™ technology in our dishwashers means it can take as little as 6.7 litres* of water to clean 13 place settings for a three-course meal**. That's less water than it takes to fill a standard sized kitchen sink.

*6.7 litre water consumption on standard Economy 50° programme on dishwasher model SMS46JW09G.

**Three-course meal as defined by dinner, soup and dessert plate, cup and saucer, glass, knife, fork, soup, tea and dessert spoons for each place setting as well as 1 serving plate, 2 serving bowls, 2 serving spoons, 1 serving fork and 1 sauce spoon.

[2] The consumption per cleaning cycle of the "Eco 50" programme using cold water fill
[3] We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmo/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information.
Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to ¾" screwed joint. All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption. Data valid in this table as of April 2019. Subject to modification without prior notice.

Introducing the Bosch refrigeration range.

Save more, waste less. Our range of freestanding fridge freezers save you money thanks to their energy efficiency ratings. They are also packed with innovative technology to keep your food fresher for longer, so you'll throw out less and save on your weekly shopping bill.

To help you choose the right appliance, we have divided them into the four ranges below.

Model shown: **KGN36HI32**

Serie 8 +++

Cutting-edge design meets advanced technologies. All models in our **Serie 8** range are packed with energy efficient and labour saving features that save valuable time, effort and money – perfect for modern, busy households.

Serie 6 ++

Our **Serie 6** range of appliances combines energy efficient performance with convenient storage and superior food preservation.

Serie 4 +

All models in our **Serie 4** range combine practical features with Bosch build quality.

Serie 2

Built to keep electricity costs down. With energy efficiency an increasing priority in homes, the **Serie 2** refrigeration range is just as efficient as it is value for money.

Making **life easy** through innovative technologies

Selecting the right fridge freezer for you.

Height, width and fridge freezer split.

Our fridge freezer options are tailored to suit every family household need so you can choose your appliance to ensure this. For those who shop little and often, try a smaller capacity fridge and freezer which doesn't impact on space. If you have a busy household and do a full weekly shop, a spacious 70/30 fridge freezer would be ideal.

(Check model for available functions)

Home Connect
Thanks to Home Connect, you can now check the contents of your fridge at any given time and place. Interior door cameras take pictures every time the door is closed, and conveniently send them to your mobile device.

NoFrost
Never defrost again, thanks to perfect protection from ice formation - that saves time and effort.

LowFrost
Defrost less often thanks to lower ice formation — saves work and is energy-efficient.

BigBox
An extra-deep frozen food drawer for practical stacking of frozen foods containers or large frozen items like gateaux or pizzas.

MultiBox
Transparent drawer with wave bottom, ideal for the storage of fruits and vegetables.

Safety Glass
Strong glass shelves ensure heavier items can be stored safely.

SuperCool
Activating the SuperCooling function before you go shopping lowers the temperature for a short period, so your fresh shopping is kept at the right temperature.

MultiAirflow
The fan-assisted MultiAirflow System causes gentle, even currents of cold air to emerge at all levels of the chilling and freezing area. Temperature fluctuations are minimised and cooling times reduced.

EasyShelf Access
The shatterproof, frameless glass shelves are particularly easy to use, thanks to the smooth pull-out mechanism. And they also give you a clear view of your food at any time.

Finger Print Free
Your appliance will stay finger print free and looking clean and fresh.

Features that make Bosch the right choice.

NoFrost.
Never worry about having to defrost the freezer again. The NoFrost system prevents the build up of ice by automatically initiating the defrost operation as required. This also helps to maintain the appliance's energy efficiency.

LowFrost.
LowFrost cuts ice build up by half meaning you have to defrost your freezer less often, compared to approximately every 3 months for a static freezer, saving you energy and time.

SuperFreeze & SuperCool.
Activating the SuperFreeze function before you go shopping lowers the temperature for a short period, so anything new put into the freezer is frozen quickly. SuperCool on your fridge performs a similar task, keeping everything at the right storage temperature.

PerfectFit.
Our cooling appliances with PerfectFit can be positioned right next to side walls and furniture in your kitchen. This allows the most flexible installation possible so you have the appliance where you want it.

Model shown: **KGN34XL35G**

Making life easy through innovative technologies

Lock in the freshness.

❄ VitaFresh

With **VitaFresh**, you'll be able to store your fruit and vegetables at exactly 0°C to lock in the freshness. Also, with an adjustable humidity setting on the drawer, you'll be keeping your fresh food in a perfectly controlled environment.

This combination of temperature and humidity helps you to protect all the aromas, essential nutrients and valuable vitamins in your fresh food. Hence, it is easier than ever to maintain a healthy diet with fresh fruit and vegetables every day.

You'll also find two drawers, one for fish and one for meat, with a temperature regulating slider which lets you lower the temperature up to 4°C lower than the rest of the fridge. **VitaFresh plus** models have the added benefit of a convenient push button for humidity control.

Controlling your appliance.

Across the range of cooling appliances, there are different ways you can control the temperature inside your fridge and freezer. Below are the different variations:

Exterior LED, digital control (touch control).

Exterior LCD, digital control (touch control).

Exterior touch control (digital control).

Interior LED button control.

Interior LED button (freezer only).

Whichever model you choose, you'll find lots of reasons to love your Bosch fridge freezer.

Energy efficient.

365 days a year, 24 hours a day, fridges and freezers are always on. In fact, they make up around 17% of the electricity used in the home, or even more if it's a particularly old model.* That's why we design our fridges and freezers to be as energy efficient as possible, and we're proud to be able to offer so many right across our ranges.

VarioZone.

With more flexibility due to variable-use glass shelves and drawers in the freezer compartment, you have more space to store larger items for those occasion you need to.

Easy to Clean Magnetic Door Seals

The magnetic door seals on all of our refrigeration ranges are **removable**, making them easy to clean and/or replace when necessary.

Model shown: **KGN36AW35G**

Making **life easy** through innovative technologies

vario style

Designed to be redesigned.

The innovative Vario Style system is equipped with a clever combination of invisible hooks and magnets so you can easily change the colour of your door.

You don't need any specific tools or technical knowledge. Within just 3 easy steps your kitchen style is transformed.

With our Vario Style fridge freezers and VitaFresh freshness system, both your food and your kitchen will always be fresh and in season.

Selecting the right fridge or freezer for you

Joining strips

If you choose to have a freestanding single door fridge and single door freezer installed into your kitchen you may want to consider using joining strips to go between the two appliances.

This allows a more seamless finish to your kitchen as the gap between the appliances will be covered.

We have two available options, from stainless steel or white, simply select the joining strip which suits your appliance colour.
White joining strip 203cm
KSZ39AW00

Stainless joining strip 203cm
KSZ39AL00

Side by side

Single door fridges and freezers are designed to sit side by side to give you the double door effect. With hinges that can be fitted to either side of the appliances, you can choose which side you would like your fridge and freezer. Of course, if you want your appliances separate this is possible as well. Choose from a variety of heights to suit your kitchen.

Introducing the Bosch small appliances.

Our award-winning range of appliances isn't just restricted to large models. We also design and engineer high quality vacuum cleaners, irons, steam generators, drinks machines, kettles, toasters, kitchen machines and other food preparation appliances.

Cleaning on all levels.

You no longer need different devices to clean different parts of your home. Now, you can effectively clean from floor to ceiling. The Unlimited comes with useful accessories (BCS122GB and BCS111GB only) that allow you to clean all kinds of flooring, such as tiles or hard floors, as well as all kinds of surfaces, such as stairs, tables, upholstery and even the ceiling. It is also perfect for vacuuming your car.

Model shown: **BCH732KTGB** vacuum cleaner
MUM9GX5S21 kitchen machine

Cordless. Charge less.

The Bosch Unlimited cordless vacuum, with two batteries and quick charger, you have continuous run-time in the palm of your hand.

Continuous runtime*.

If you want to keep your home clean at all times, you need a device that is always at hand whenever you need it. The Unlimited provides continuous runtime, thanks to **exchangeable battery packs** and a quick charger (EHZUC181GB). One battery can be charged while the other battery is in use, so the device is always ready to go and never runs out of power. Second battery is included with BCS122GB or additional batteries can be purchased separately (BHZUB1830: 3 Ah battery).

Power4All System.

Bosch battery technology ensures powerful performance across all our products. The exchangeable **Power4All System** only requires a single battery pack, which means complete flexibility when charging. The battery is part of our Power4All system so can be used in compatible power tools and lawn and garden products from Bosch.

Quick charger accessory.

Although cordless vacuum cleaners are very convenient, their batteries might not always last as long as you wish. The quick charger accessory (EHZUC181GB)* allows charging the exchangeable batteries of the Power4All System within 60 minutes and therefore extends the Unlimited's runtime.

*Available separately when not included with pack.

*Under 60 minutes charge time with quick charger (EHZUC181GB). Compared to other manufacturers' communicated charge times of cordless sticks in the UK market.

Making **life easy** through innovative technologies

Flexxo

BBH3251GB

The Flexxo makes it easier to keep your entire home clean. All the tools are integrated directly into the device, allowing for full 360° cleaning to save you time and energy. With an extendible crevice tool, an upholstery brush and clip on furniture brush, you can clean far more than just floors. For small areas, you can use the detachable hand held unit to clean up any mess without having to use the full vacuum cleaner.

With **Auto**Cook you can.

Welcome to a new way of cooking. With AutoCook, you can bake, steam, sauté and roast your way to tasty dishes with one, easy to use appliance.

Includes FREE recipe book and app

Model shown: MUC88B68GB

50 preset programmes
You can preset the perfect temperature and cooking times for your chosen dish, and even store your own recipes.

Innovative induction technology
Our perfect heat distribution and precise temperature settings guarantee tasty results every time.

Pressure cooking function with steam pressure
The gentle cooking method retains vitamins and minerals while reducing cooking time by up to 60%.

Large 5L stainless steel bowl
This sizeable stainless steel bowl has a non-stick coating that prevents food from burning and is the perfect size for family-sized portions.

Easy to clean
The bowl and other accessories are all dishwasher-safe.

Bring tasty back to mealtimes with...

✓ Perfectly delicious dishes every time you cook.

✓ 16 different ways to cook with one appliance.

✓ No burning or boiling over ever again.

✓ Quick pressure cooking and induction technology.

✓ A delayed start option so your meals are always freshly cooked.

✓ Over 100 recipe ideas with your free book and app.

Bosch makes it, easy.

Our multi-functional kitchen machines, food mixers and processors are packed with innovative, labour-saving technology so you can chop, blend, shred, mix and whisk your way more quickly through your food preparation task.

Perfectly mixed ingredients.

Your ingredients will be perfectly mixed thanks to the 3D mixing system. Simply add your ingredients to the bowl and let the mixer do the work for you. The unique stirring movement is designed to ensure that all of your ingredients are thoroughly mixed, and nothing is left stuck to the side of the bowl.

Make sense of mixing with OptiMUM.

Intuitive sensor technology and incredible versitility means the OptiMUM easily takes care of all your mixing, weighing, chopping and blending.

Offering everything-in-one, this kitchen machine makes cooking and baking a whole lot easier for you. Including a huge variety of professional accessories for all your cooking and baking ideas, this is the only kitchen machine you will ever need to bring your recipes to life.

Perfect results at the touch of a button.

Another smart feature of the OptiMUM is its highly sensitive sensors that measure the consistency of the ingredients and stop automatically at exactly the right time. So, you'll always have perfect results at the touch of a button – whether it's dough, whipped cream or egg whites.
And rather than keeping an eye on the machine, you'll be free to do something else.

3D Mixing.

The mixing tool is rotated in three different directions, this ensures all the ingredients are perfectly mixed and nothing remains stuck to the sides of the bowl, eliminating the need to use a spatula as well.

The large stainless steel mixing bowl with 5.5L capacity and two handles further guarantees ease of use.

Integrated scales.

The OptiMUM makes life even easier thanks to the built-in scales that accurately weigh all your ingredients as you add them to the bowl, saving you cleaning additional bowls.

Hygienie Function	-
Anti Calc	Calc'n clean timer, Calc'nClean Perfect, De-scale sponge
Secure auto shut-off	●
AntiShine	●
Length of main cable	180 cm
Water tank capacity	1300 ml

● = Yes - = No

Serie 8 +++

TDS8030GB

One setting for all your ironing.

i-Temp uses one optimum temperature to suit all fabrics so now there's no need to pre-sort the laundry. With i-Temp you can save time and carefully look after your clothes. Available on both the VarioComfort and EasyComfort range.

Calc'nClean Perfect is a highly efficient cleaning system – a first for both the steam generator and iron. The fully-automatic cleaning programme for the iron also removes any limescale particles.

Glide your way to perfection.

Our VarioComfort system is easy to use and has a programme for all fabrics. It applies a constant high-pressure steam allowing you to achieve precision ironing faster and easier than ever before. With flexible settings to suit all fabrics, a unique hygiene programme on selected models and a smooth-gliding and scratch-resistant soleplate, you'll get perfect results every time.
